

Want Mexican News

New York City, July 29, 1912

El Paso Herald.

Dear Sirs:—

I wish to subscribe for your paper and wish to know the rates so that I can send my check with my subscription. Several copies of the El Paso Herald were sent to me recently from a friend in El Paso, and I wish to take the paper in order to keep fully posted on the struggle in Mexico. Some of my folks live near El Paso and of course the war news is of great interest to me.

Respectfully yours,

Many letters similar to this one have been received within the last month. Your folks back home would be very much interested in keeping in close touch with conditions in Mexico and along the border while things are so critical. Send them the El Paso Herald

No trouble to take short time subscriptions. We can send the daily Herald to all parts of the United States, Canada or Mexico at the rate of

Green Things, In the Eating Line, Help Keep Down High Cost of Living

With Drop in Green Corn, and Increasing Supply of Beans and Onions, Market Day Loses Its Terrors.

SUMMER truck—green corn, green beans with a dash of green onion, valley cantaloupes, fresh home grown fruits make these summer days bearable. Market offerings this week are of the newest and most stylish shade of green, for green goods are no longer considered bad medicine when they are offered for sale by the honest green grocer, who is not so green after all. Grape fruit, chased out of the market as a breakfast food fad, has become plentiful and increased its price from three for two bits to ten cents straight, with but few takers as long as the lower valley melons last. These same melons have dropped a point and are now selling for \$1.50 a crate, which is 50 cents cheaper than last week. Valley peaches have dropped to 20 cents a small basket, but are still five cents higher than the Elbertas from down east Texas way. Green chili has done its bit to make the green stuff popular by dropping in price from 20 to 15 cents per pound. The pepper family have all taken a drop, for bell peppers are worth 20 cents this week, when they were selling for 25 last market day. Tomatoes are the only vegetable that the marketers do not want green, and they continue to be too green to eat, because it is an off season with the California tomatoes and yet not soon enough for the Texas kind. Strawberries have faded from the market, after a futile effort to hold out against the summer fruits. Until the Mexican revolution is settled and the railroads are running again, there will be no strawberries in the market in El Paso. Once the Mexican Central is open, the strawberries will continue all winter. Plums are "plum" gone, having been scratched in the market by the El Paso Valley and a good time for canning these sweet, juicy fellows. The market report for this week is:

Fruits.
Green apples, 5c per lb, 5 lbs for 25c
Grape fruit, 10c each, 10c each
Lemons, 20c to 30c per doz.
(Wholesale \$2.50 per box)

Salmon, 25c per lb.
Sausage, 12 1/2c per lb.
Sausage, 12 1/2c per lb.
Sausage, 12 1/2c per lb.

DARWIN'S SON OPENS CONVENTION

London, Eng., Aug. 2.—More than 400 eugenicists, the women outnumbering the men, attended the opening session of the first International Eugenic Congress, now in session at the Imperial Institute. Maj. Leonard Darwin, fourth son of the late Charles Darwin, fittingly carried on the spirit of his famous father's teachings by saying in his presidential address that eugenics should be regarded as a natural science.

Major Leonard Darwin.

quence to the acceptance of the doctrine of evolution, heretofore being the soul of eugenics. "As an agency making for progress," said Maj. Darwin, "conscious selection must replace the blind force of natural selection, and man must utilize all the knowledge acquired by studying the process of evolution of the past in order to promote moral and physical progress in the future. The nation which first takes that great work thoroughly in hand will not only win in all matters of international competition, but will be given a place of honor in the history of the world."

There is no animal history recorded that is so ancient as that connected with the Arabian horse, and there naturally has been a great deal of conjecture as to where he came from. While there is but one general breed of Arab horses, writes Homer Davenport in the Woman's Home Companion, there are many subfamilies, and of these there are five primary families called the Khamsch. As the legend runs, these have descended from five great mares which with other mares of King Solomon were drinking at a river after long hardships in war when the trumpet blew calling them back to battle. Only five responded to the call, and it was those five that founded the five great families.

Feething babies always have a hard time of it when this process occurs in hot weather. They not only have to contend with painful gums but the stomach is disordered, bowels loose and the body uncomfortable. The best help you can give the little sufferer is McGEES BABY ELIXIR. It corrects sour stomach, cools and quiets the bowels and helps digestion. Price 25c and 50c per bottle. Sold by Scott White & Co., three stores.

METEOR EXPLODES IN A RAIN CLOUD

Causes Excitement in Winslow, Ariz.; Sound Is Heard 100 Miles.

Tombstone, Ariz., Aug. 2.—Winslow, Holbrook and the country adjacent for a radius of over 20 miles were thrown into a state of excitement that bordered close upon a state of panic when a meteor passed over that country and exploded at a height estimated at from 1000 to 1500 feet.

Attorney E. S. Clark, who returned from attending court at Holbrook, gave an interesting account of the phenomena. It was the strangest ever witnessed in that country and not alone created excitement but occasioned many to become so alarmed that a wild stampede followed.

Mr. Clark states that the meteor was seen approaching from the northwest at about 6:45 o'clock in the evening, when it had reached a point about seven miles southeast of Holbrook and over the little station of Aztec on the Santa Fe railroad. It entered a rain cloud, when a terrific explosion followed. The detonation was felt distinctly at Concho, forty miles to the east, and at Pima Dale, 50 miles to the south, and in both settlements occasioned alarm.

After the first explosion a vast cloud of smoke, or vapor, arose in the heavens and gradually passed away. Where the meteor struck the earth at Aztec, the section foreman and his helpers gathered over 200 pounds of the matrix, the largest fragment weighing 15 pounds. The substance recovered is dissimilar in character and was foreign to mineralogy in construction as observed by mining experts.

BELMONT CRIES ABOUT BLACKMAIL

New York, N. Y., Aug. 2.—August Belmont, the multimillionaire traction magnate, lost his temper at the hearing to which he was subjected before referee Langdon P. Marvin in the suit brought against him and the Interborough Rapid Transit company by

AUGUST BELMONT

Clarence H. Venner and the Continental Securities company to compel an accounting of the \$1,500,000 in stock which Mr. Belmont received for his services. After a long and bitter fight, Mr. Belmont, tired of the continual questioning, suddenly flared up. "I want to be courteous to you, Mr. Dodge," he cried angrily, "but I find great difficulty. The courts have designated your client as a political blackmailer, and I am being pushed in that spirit by your client."

HAYDEN OFFICERS ARREST A SUSPECT

Hayden, Ariz., Aug. 2.—Through the efforts of local deputies Gibson and Martin and attorney Studley, one of the persons who it is alleged, has been annoying occupants of the local office during, by petty thieving, has been placed under arrest. He is a Mexican by the name of Priminto Malino and arrived in Hayden about a week ago on horseback, coming over here from Ray. The horse, it is said, was rented from the Ray stables of Ray, and the owners were notified regarding its whereabouts, one of the men coming over after it. Deputy Martin placed the man under arrest. The man was carried to the Hayden police station, where he was held. He is said to have been carrying a large sum of money that happened to be around in the dormitory.

Frank Parker, left Hayden for Texas. He will probably locate in that section of the country.

Walter Nash, after a three week vacation with friends and relatives in the Prescott district, has returned. His wife will remain away until cool weather sets in.

R. F. McCrae has left for Phoenix, to be present with Mr. Dusenbach, who is reported to be confined to his bed in that city.

John Hayden has left the employ of John MacIntyre company and left for Winslow. His wife will remain for a while with her sister, Mrs. MacIntyre.

There is no animal history recorded that is so ancient as that connected with the Arabian horse, and there naturally has been a great deal of conjecture as to where he came from. While there is but one general breed of Arab horses, writes Homer Davenport in the Woman's Home Companion, there are many subfamilies, and of these there are five primary families called the Khamsch. As the legend runs, these have descended from five great mares which with other mares of King Solomon were drinking at a river after long hardships in war when the trumpet blew calling them back to battle. Only five responded to the call, and it was those five that founded the five great families.

MIAMI MAN KILLS SELF; BODY FOUND

Was Miner, 28 Years Old, and Married—He Had Domestic Trouble.

Miami, Ariz., Aug. 2.—The badly decomposed body of Parker Medlin was found in his home on the Stephens ranch near Miami by his brother, Henry Medlin. The surroundings of the corpse indicated self-destruction. The whole top of the head of the dead man was blown off with a Colt's revolver of .45 caliber. It is thought the act was committed in the night, as the man was found in the mine on night shift, and failed to show up at the proper time last Sunday night. Medlin had evidently prepared for retiring before shooting himself. Deceased was 28 years old, and a married man domestic troubles being given as a probable cause of the suicide.
